Mission Statement

Accel Academy has been instructing, guiding, and motivating students to fulfill their potential and exceed their individual goals since 1988. Our goal is not to only strengthen the academic skills of our students, but also to motivate students to set higher standards for themselves both academically and personally.

We encourage students to strive for success. Accel stresses the importance of dedication, maturity, responsibility, ambition, creativity, and mastery.

A Message From Our Principal

““ To the Leaders of the next generation,

The world is constantly changing fast! It seems every second is important as time progresses. We all have very important goals to pursue. However, we all have to take the time to make our futures successful. If you lose your health, you can recuperate. If you lose your fortune, you can regain it. Even if you lose your sweetheart, you can find another. However, once you lose time, you can never get it back. Whether you are going to be the person you want to be or not depends upon how you use your time right now. Set your goal high and make the most of every opportunity to accomplish your goal by investing your time wisely.

Sincerely,
In Pak
Principal, Accel Academy

””

I. SAT Programs

How Accel SAT Program Works?

Register by Test Date

12 class meetings; 72 hours of instruction

Summer Classes	Fall Classes	Winter Classes	Spring Classes
June-July or July-Aug.	Sep.-Nov.	Dec.-Feb.	Mar. -May.
3 days/wk	1 day/wk	1 day/wk	1 day/wk
Mon/Wed/Fri or Tues/Thurs/Sat	Saturday	Saturday	Saturday
August SAT October SAT	December SAT	March SAT	June SAT

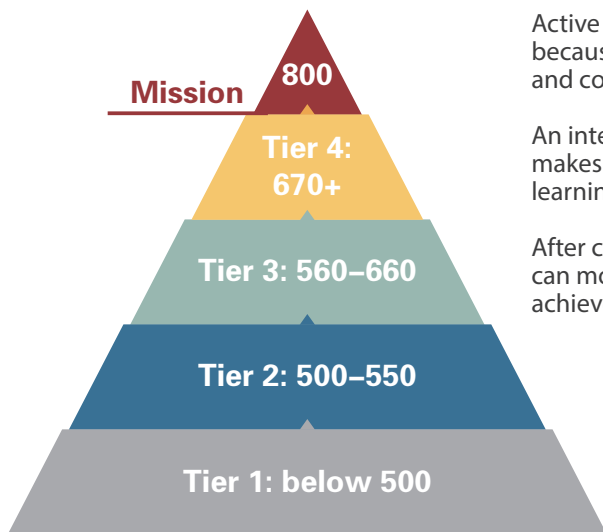

LEVELS: Tiered Learning Process

After registration, students either take a placement test or submit official PSAT/SAT scores.

Students will be placed in different levels of classes based on the scores.

- Students who scored above 670 in either subject on an Official PSAT or SAT do not need to take the placement test. They will be placed in Level 3 (Advanced Level).
- Students who scored lower than 670 in either subject may take the placement test or use the official score for placement.
- Students who do not have official SAT/PSAT scores must come in and take the placement test.

There are 4 different levels of class.
Each level is a 12-class course.

Active participation is promoted because students feel comfortable and confident in class.

An interactive classroom experience makes students more receptive to learning.

After completing one level, students can move up to higher levels to achieve their goal scores.

Level Change: The placement test is given only once; however, students may change levels later after first 3 classes.

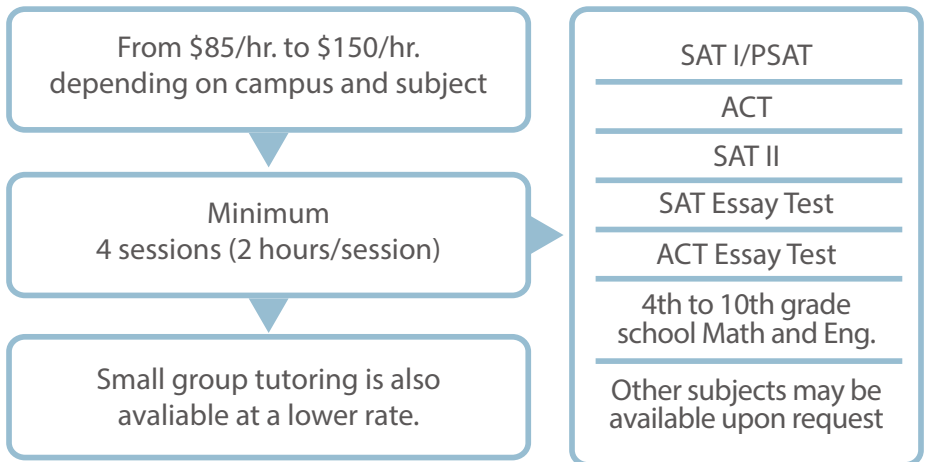

II. One-on-One Tutoring

Every student is unique. **Everyone learns differently**, and the instructional approach needs to be altered for each individual student's learning style especially, if the student struggles in a certain area. One-on-One private tutoring will **cater to each student's own personal goals, needs, strengths, and challenges**.

For those who want to strengthen a particular area in just Math or English, One-on-One tutoring can be **extremely effective**. It can be **the most time and cost effective** ways of overcoming difficulties.

Those students who are struggling in their English and/or math classes at their regular full-time schools or who need special attention in order to succeed in their SAT/ACT/PSAT preparation can come to Accel after school or on Saturdays to get special private tutoring from our certified, professional full and part-time math and English teachers. **Virtual tutoring is also available for students who are not able to attend sessions on campus.**

Students at Accel receive quality instruction in all levels of college exam prep, elementary, middle, and high school mathematics and English literature, composition (essay writing, etc.), grammar, and vocabulary.

III. Math & English Enrichment

Accel Academy's math and English Elementary through High School Enrichment Program helps students stay ahead and achieve the highest grades in their school classes by focusing on strengthening students' skills in and knowledge of math and English.

The goal is to foster a love of learning and promote a sense of self-confidence that will allow students to achieve as much as possible.

Triple Purpose

English Class

English 4, 5, 6; Middle School English; High School English

Math Class

Math 4, 5, 6; Pre-Alg 1 & 2; Alg 1 & 2; Geometry; Pre-Cal

Math & English Class Schedule

		Fall	Winter	Spring	Summer
Weeks		12	12	12	4
Day of Class		Saturday	Saturday	Saturday	3 days/wk
Class Length	Math	2 hr.	2 hr.	2 hr.	2 hr.
	Eng.	2 hr.	2 hr.	2 hr.	2 hr.

Excellent Google Reviews

The material taught by the Accel program was challenging yet effective in preparing me for the SAT. Its contributions to my SAT score cannot be understated, though this class is no walk in the park. **-Edward Z.**

Accel is very helpful and worth your time and money. I went from a 1040 for my PSAT score to a 1420 for the real SAT. **-Cindy Y.**

As an International student, I came to Accel for almost 1 year. I made a lot of improvements on my SAT as well as my English during this progress. The English and math teachers are really kind and helpful. We often had conversation after class. They taught me to become a better test taker, a better thinker, and a better person. I am forever grateful to this place, and I will definitely recommend this place to those who want to do well on their SAT. A special thanks to the grammar queen. **-Harry K.**

Participated in the summer and winter program. The combination of Ms. Parris' English lessons and Mr. Pak/Mr. Kim's math practice led to great improvement in my SAT score. After scoring a 1380, I improved to a 1440 and eventually a 1520. Definitely recommend. The teachers are very dedicated and helpful. **-Allen W.**

My son accomplished a great achievement after he took SAT class in Accel Academy. We are very happy about his SAT score and appreciate the education he obtained from Accel Academy. We strongly recommend this place for every student. **-W G**

Very happy with my progress that I made here! Ms. Parris is amazing and helped me increase my RW score immensely! 11/10 if you are serious about getting a great score, come here! **-Justin K.**

One-on-one tutors can teach you the knowledge behind each category, but Accel goes beyond. Each teacher knows the tricks to each category that is guaranteed to make taking the SAT's so much easier. I also found it beneficial to listen to other student's questions. Even if I were to get a problem right, there may have been an easier method to a math problem, or a different approach to an essay that is more effective than what I wrote. Connections with teachers last forever. My Accel teachers helped me with my college essays! I still use the knowledge I learned from Accel when writing my essays. Accel is by far the BEST way to prepare for the SAT's! **-Linda W.**
